

Community Impact & Investment Goals & Strategies FY 2015-2018

EDUCATION	
Helping children and youth achieve their potential through educational readiness.	
<p>Problem Statement: Washington County students are not fully school ready and prepared for consistent academic advancement toward college or career readiness.</p>	
<p>Goal Statement (1): By June 30, 2018, increase the number of Washington County students in evidence-based collaborative programs entering school ready to learn by at least 7% from the current rate testing scores.</p>	
<p>Goal Statement (2): By June 30, 2018, school-age students enrolled in evidence-based programs will consistently advance academically by at least 7% as measured / demonstrated through Washington County Math and Literacy test results. Note: Measures will be based upon current Elementary Level Testing (e.g., Lexile, Writ)</p>	
<p><i>2- 3% will be the annual incremental goal for both education goals.</i></p>	
Strategies:	Performance Measures:
<ol style="list-style-type: none"> 1. Accredited, affordable pre-k programs that offer flexible schedules to accommodate parents' work/life schedules. 2. Expand reach of programs that encourage parents to be their child's first teacher. 3. Support evidenced-based early learning initiatives and programming 4. Accredited, affordable out of school programs that offer flexible schedules to accommodate parents' work/life schedules. 5. "Out of School Time" programs that offer evidence-based Math, Science and Literacy Mentoring Programs. 6. Evidence-based programming aimed at ensuring academic success and providing skills required to prepare children and youth for college, trade school, and work. 	<ul style="list-style-type: none"> • # of Children (infants, toddlers, preschoolers) enrolled. • # and % of children meeting or exceeding developmental milestones • # and % of children passing social-emotional questionnaire • # of parents / caregivers engaged in programming • # and % of early childhood teachers participating in professional development • # of School-age Children enrolled. • # and % of children meeting or exceeding testing requirements following periods of out of school time • # and % of out of school time staff participating in professional development • <i>Note: Measures will be based upon current elementary level testing (e.g., Lexile, Writ).</i> <p><i>*Note: The current kindergarten readiness measure for Washington County students is the MMSR. The RK or Kindergarten Readiness Measure will be used beginning in October 2014. The RK will have less teacher subjectivity and will measure results from actual tasks.</i></p>

Community Impact & Investment Goals & Strategies FY 2015-2018

Education Related Initiatives of UWWC:

1. **Dolly Parton's Imagination Library** – encourages preschool aged children to read; encourages families to read & interact with preschool children.
2. **Summer Learning Loss** – encourages agencies to be more specific in program essentials and how they relate to enhancing a student's learning.
